What would you like to see added or changed to the upcoming Farm Bill?

Please list any specific issues (Local, State, or Federal) that our County Farm Bureau should be working on to improve our members financial stability and quality of life.

Please list any other comments or suggestions here:

The organization's strength is based upon the willingness of volunteers to dedicate time and expertise in various committee areas. As the number of farmers decrease, it becomes even more imperative that everyone gets involved to maintain the quality of the program. You are needed for the future! Help by serving on one of Farm Bureau's committees. Most of the committees meet 2-4 times a year. If you are interested, please put a check next to the committees you are interested in.

- \_\_\_\_\_ Legislative- involved with evaluating issues that affect farmers through legislature along with working and maintaining a productive relationship with State and National Elected Leaders.
- \_\_\_\_\_ Local Affairs- involved with local issues that affect members in our county, i.e., taxes, roads, zoning, and other issues that may become a local concern.
- \_\_\_\_\_ Marketing Committee- provide programs on a local level that will increase our member's net income, offer educational and informational programs, and maintain good working relationships with affiliated companies and commodity groups.
- \_\_\_\_\_ Membership Committee- organizes programs and activities aimed at maintaining and increasing membership in LaSalle County.
- \_\_\_\_\_ Young Leader's- provide opportunities for leadership development by enabling young people to participate in Farm Bureau programs so they are able to contribute to the overall effectiveness of the organization.
- \_\_\_\_\_ View Point Committee- provides an opportunity for LaSalle County Farm Bureau members to offer input concerning policy development at the local, state, and national levels.
- \_\_\_\_\_ Social Media and Technology Committee- provides assistance with LaSalle County Farm Bureau social media pages and technology.

**Other ways to be involved**

- \_\_\_\_\_ FB ACT - is a program that helps you take back the influence in Washington, Springfield, and even your own backyard. When you join FB ACT you are asked to respond to action requests by emailing or calling your elected officials on key agriculture issues. FB ACT guides you through the entire process with an easy-to-follow format. Typically, you are called upon about 6 times year and each Action Request takes about 5 minutes of your time.
- \_\_\_\_\_ I am interested in volunteering 2-3 hours at the Lemonade Stand during the LaSalle County Junior Fair.
