

HOLIDAY HANDPRINT WREATH

MATERIAL:

Paper plate

Green construction paper

Glue

Scissors

Ribbon (any color)

Decorations of your choice
(glitter, pom poms, buttons,
gems, etc.)

INSTRUCTIONS:

1. Trace and cut out handprint on green construction paper. You will need about 10-15 handprints cut out depending on size of hand.
2. Cut out the center of the paper plate so you are left with a ring.
3. Glue the palms of the handprints to the paper plate. Overlap just enough that none of the paper plate is showing.
4. Cut the ribbon to your length choice. Loop around and tie so the wreath can be hung up on display.
5. To finish, decorate the wreath.
